7TH FRAMEWORK PROGRAMME

5 WEEK PROGRAMME ON PROJECT DEVELOPMENT AND MANAGEMENT

BUDAPEST, HUNGARY

A NEW INTEGRATED TRAINING
SOLUTION BY
EUROPA MEDIA

10 April - 6 May 2007 (eLearning)
7 - 11 May 2007 (Workshop)

ABOUT THE PROGRAMME

Overview

The **Seventh Framework Programme (FP7)** is Europe's main financial instrument for achieving the Lisbon Agenda's goals of growth, competitiveness and employment. It is a key pillar for the creation of a single European Research Area (ERA). The facts are impressive. Over 50 Billion EUR of funding, 10 thematic areas spanning over 7 years.

But it is also a fact that some of the best ideas will never receive funding. Every year thousands of excellent ideas are turned down because the proposals are inadequately developed. And what about the proposals that are positively evaluated? Each year thousands of European project managers and researchers realise the hard way that winning a European project is actually only the beginning. Contracts are lost during negotiations and cost statements are rejected due to mistakes that could have been avoided by proper project management.

What can you do to avoid this? There are hundreds of "Information Days" and quick seminars on developing "Bulletproof Proposals" organised in Europe every month. It takes years of active practice to make a good project manager. Can you really learn everything you need to know in a one-day seminar?

A team of international experts, who have successfully developed, managed and evaluated hundreds of project proposals under the previous framework programmes have decided to develop what they consider to be the ultimate solution in FP7 research project manager training. The Academy is an all-inclusive training programme without the slightest compromise. The benefits and innovative character of e-learning are combined with hands on exercises during a 5-day practical workshop.

The curriculum of the FP7 Funding Academy is optimised to suit the learning needs of project managers who have limited or no experience with the development and management of projects under the framework programmes.

The target group also includes project managers who have participated in the development of proposals under FP5/FP6 or have been involved in the management of projects. Those who have actively coordinated projects during the earlier programmes are advised to consult our list of seminars and select a course offered at "advanced" level.

FP7 Academy will bridge the gap between "Information Days" and the several years of actual experience required to develop project proposals and manage projects. During the 5-week intensive exercise all activities have been developed to reconstruct what actually takes place during the life-cycle of an FP7 project. You will learn how to:

- *Develop successful project proposals*
- *Represent your organisation at project meetings*
- *Manage your running project*
- *Act as an interface between your research staff and administration*

The combination of **e-learning** with a highly interactive 5-day workshop results in a training efficiency that other seminars are unable to match.

TRAINING AGENDA I.

E-LEARNING

11 April - 6 May 2007 (4 weeks)

The FP7 Academy's new, innovative features such as **e-learning and distance tutoring** in combination with personal interaction with Europe's leading project managers, provide efficiency that other programmes are unable to match. With Europe's only full-featured e-learning solution on project development and management we are ready to bring comprehensive knowledge on FP7 programmes right to your desktop.

By taking advantage of the new possibilities offered by e-learning it is now possible to devote more time to the most important issues, such as practice

THEMATIC MODULES

FP7 Basics (20 hours). Understand the policy backdrop of FP7, learn about other Community Programmes and Funds. European Technology Platforms, Strategic Research Agendas, Joint Technology Initiatives, European Research Council, Specific Programmes, Themes... Explanation of all the new terms and expressions used in FP7.

FP7 Priorities and Structure (15 hours). The specific programmes: 1. Cooperation (Collaborative research), 2. Ideas (frontier research), 3. People (Marie Curie actions), 4. Capacities (Research infrastructures). Learn about the Themes and cross-cutting programmes with special focus on your selected thematic areas.

FP7 Instruments (15 hours). What are the new instruments and how do they work? Collaborative research (Collaborative projects, Networks of Excellence, Coordination and Support actions), Joint Technology Initiatives, Article 169, ERC Independent Research Grants, etc. Examples. How to tailor a project idea under different instruments.

FP7 Project Development (20 hours). How to get started. From download until submission. General provisions, eligible countries, eligible consortia, Calls (for

proposals, for experts, for services and competitive calls), developing the budget, Instruments/funding schemes, Research themes. The role of the Coordinator. The proposal chapters and forms. Typical mistakes and suggestions.

FP7 Project Management (20 hours). The new financial rules and forms. The EC contract, the Consortium agreement and the new contractual framework in FP7. Coordination, reporting obligations, responsibilities, tasks, IPR, Risk-Sharing, Audits. Time and cost-keeping systems, examples, best practices in project management.

HORIZONTAL MODULES

Project Proposal Preparation in practice (40 hours): Users in the system will establish contact, interact with each other and start developing their joint project proposal. Progress will be monitored and moderated by tutors of the Academy.

Exam (90 minutes). For the workshop in Budapest students must have a thorough understanding of the new priorities, instruments, rules and the basics of developing and managing FP7 projects. An online test will be conducted to test the actual level of their knowledge.

Why E-learning?

This relatively new teaching method, based on cost effective digital technology and meeting all possible user requirements, has many advantages compared with traditional training courses:

- Flexibility, study in comfort, **easy access** - users can work through the material according to their own schedule; there are no time restrictions
- E-learning technology provides an **interactive training environment**, where participants can also contact each other, share information, ask questions and test their abilities

TRAINING AGENDA II.

FP7 PROPOSAL DEVELOPMENT & MANAGEMENT

7 - 11 MAY 2007, BUDAPEST, HOTEL MERCURE KORONA****

The Academy is based on two pillars:

- **Pillar I:** Synthetised theoretical information on FP7 presented in a clear, understandable format.
- **Pillar II:** Practical advice for project developers and managers based on experiences gained from years of successful EC project development and management.

DAY 1

Lectures (morning):

- » Beyond FP7: the new EC 2007-2013 budget period and the relationship between FP7 and other important programmes
- » The subjective dimension of FP7 - lessons learnt under FP6 and earlier framework programmes

Workshop (morning):

Themes (participants are grouped according to their thematic priorities). The objective of the groupwork is to help better understand the new topics and priorities.

Workshop (afternoon):

Developing a Demo Proposal Part I. Interactive real-life simulation of project proposal development. Setting up a consortium. Roles and tasks of the Coordinator and the project Partners.

Evening: "group work" continues in 3 distinct locations in Budapest

DAY 2

Lectures (morning):

- » The new Instruments of FP7 - a subjective overview with discussions based on past experiences and expectations
- » Developing superior FP7 proposals: the first steps. Content development. Examples. Dos and Don'ts

Workshop (morning + afternoon):

Developing a Demo Proposal Part II: Participants continue to work on their project proposal closely monitored by the trainers. Technical chapters, content development.

Evening: Diverse consortium building exercises

DAY 3

Lectures (morning):

- » Developing high-quality FP7 proposals: specific examples, typical mistakes. Discussion on each chapters of Part B.

Workshop (morning+afternoon):

Developing a Demo Proposal Part III: Finalising the proposal, administrative and financial chapters. Demo proposals are submitted by the end of Day 3. Project concept presentations.

Evening: Sightseeing Tour by Bus & Common Dinner

DAY 4

Evaluation Day (workshop morning+afternoon)

An entire day will be dedicated to the real-life simulation of the evaluation procedure. Participants will be requested to read and evaluate project proposals according to the strict routines of FP7. All proposals are actual proposals submitted earlier by the organisers under FP5 and FP6. The goal of this exercise is to allow the participants to see real proposals AND make them understand the evaluation process.

- » Morning Lecture: Orientation
- » Individual Evaluation (app 1.5 hours/proposal)
- » Consensus Meetings (30 minutes/proposal)
- » Panel Meeting, final ranking (30 minutes)

Discussion: experiences, impressions and important observations. Lecture on contract negotiations at the end of the day.

DAY 5

Morning Workshop: Contract negotiation role-play (based on the proposals submitted by each group on Day 3).

Afternoon Workshop: Project management in practice, Financial management. Reporting. Audits. Final discussion.

FEEDBACK

"Lecturers are very dynamic and professional. One can feel that they know what they are talking about"

Ms. Pauline Borgniet, ARMINES, France

"I was able to gain an overview and have sufficient knowledge to take a proposal forward with confidence."

Mr. David Wylie, Wylie Associates, United Kingdom

"The seminar reached fully my expectation in the field of getting and sharing Project Management experiences in the EC programmes financed project"

Marko Kac, Maribor Development Agency, Slovenia

ACADEMY FOCUS

FP7 PROJECT DEVELOPMENT

Some of the best ideas will never receive funding, and that's a fact. Putting forth a good proposal built around an excellent idea is simply not enough any more. As sad as it may be, you just have to accept the fact that developing proposals is based more and more on professional experiences. The truth is that most submitted proposals are very good and even excellent. The stakes are much higher, and competition is much more fierce.

FP7 PROJECT MANAGEMENT

Each year thousands of European project managers and researchers realise the hard way that winning a European project is actually only the beginning. This realisation has a price, and it isn't cheap. Contracts can be lost during negotiations and project reports are rejected due to mistakes that could have been avoided by proper project management. Even if everything goes well, there will always be cost items that will not be accepted in your reports due to various reasons.

FP7 ACADEMY

The FP7 European Funding Academy is the ultimate solution in FP7 research project manager training. The course is based on 100% practice with the goal of training project managers, who will not only develop the skills needed for putting forth successful applications, but will also learn the necessary means of communicating and working in an international environment. We have designed an intensive training course with the objective of providing you with the most comprehensive training available for FP7 project development and management. Participants, you start with a one-month long e-learning course that is designed to provide you with in-depth knowledge about FP7, its history, basis and priorities.

After the e-learning course there is an intense 5-day workshop that will help you boost your skills in project management and will allow you to put to use the knowledge you have gained through the e-learning course. The 5-day workshop is held in Budapest and focuses on providing you with practical experience. Experts throughout Europe are invited to impart their knowledge on you and help you work out all the fine details of how to be successful not only in writing a project, but also in building a winning consortium, mastering the negotiations, and implementing and monitoring your project. As you can see, we go way beyond the basics to provide you with the most comprehensive training available, no question.

FP7 THEMATIC AREAS

Health - emphasis on transferring basic research discoveries to clinical applications

Food, agriculture and biotechnology - safer and healthier foods, sustainable agriculture and renewable bio-resources

Information and communication technologies - new applications for the industry and households

Nanosciences, nanotechnologies - generating knowledge for breakthrough

Energy - renewable energy sources

Environment - including climate change and earth observation

Transport (including aeronautics) - environmentally-friendly trans-European transport systems

Socio-economic sciences - complex social issues including employment and social cohesion

Security technologies - devoted to security with applications in the civil and defence areas

Space - supporting the European Space Programme

New elements in FP7:

- Emphasis on Research Themes
- Simplification of procedures
- European Research Council
- Development of Regions of Knowledge
- European Technology Platforms
- Joint Technology Initiatives
- Strategic Research Agendas
- 4 Specific Programmes
- Risk-Sharing Finance Facility
- Emphasis on international Cooperation
- Coordination with non-EC programmes
- Cooperation (collaborative research)
- Ideas (frontier research)
- People (Marie Curie actions)
- Capacities (research infrastructures)

And many more...

VENUE & ACCOMMODATION

BUDAPEST

The capital city of Hungary, Budapest, is the meeting point of North and South, East and West. The intercrossing cultures blend into a unique synthesis, while remaining characteristically Hungarian.

Budapest possesses a rich and fascinating history as well as a vibrant cultural heritage. Recognizing the unique value of its traditions, it has managed to maintain its magic and charm, and is rightly known as the Queen of the Danube. It has also been called the City of Spas, as there are dozens of thermal bath complexes served by over one hundred natural thermal springs.

Upon registration applicants will receive a confirmation letter via e-mail. This letter will inform them that an invoice is being prepared and will be sent to the indicated address by regular mail. All accounting details will be provided on the invoice. Cancellation Policy: Should you be unable to attend, a substitute delegate is always welcome. Alternatively, should you need to cancel, we will refund the registration fee less a 15% service charge provided you notify us by e-mail or fax at least 15 business days prior to the seminar. Additional penalty fees will apply if cancellation is made less than 30 business days prior to the start of the seminar, see cancellation policy.

Detailed thematics will be sent upon the receipt of the payment. Further information:www.eustrainingsite.com
