Day 2

## Project financing workshop & consultation

Day 1

Comprehensive overview  
of current and upcoming  
project financing  
schemes and best  
practices in Europe:  
how to secure optimal  
financing for your  
renewable energy project

IEE  
EIF  
FP7  
GEREF  
CARBON  
FINANCE  
EU ETS PHASE  
II AND III

- » Context overview - current challenges and what is expected in 2010
- » Venture capital and private equity in RES financing - Case studies, examples
- » The Global Energy Efficiency and Renewable Energy Fund (GEREEF) and the European Investment Fund - new possibilities to finance renewables and energy efficiency

- » EU ETS Phase II and III and Carbon Finance - how can SMEs affiliate with carbon schemes to finance renewable projects?
- » Structural Funds for Renewable Energy 2010-13 and the new 2009 European Economic Recovery Plan - financing renewable energy and energy efficiency initiatives
- » Intelligent Energy Europe - direct support for RES/RUE demonstration actions
- » 7th Framework programme - EC funding for research and demonstration for renewable energy, transport and energy efficiency
- » What's in the pipeline - upcoming new European and global RES financing for 2010 and beyond

By the end of Day 1 participants will have an unmatched overview of the entire spectrum of renewable financing from venture capital through carbon schemes to research and technological development.

- » Practical assistance to selecting the best funding mechanisms for a given project concept.
- » Case studies, partner brokerage and exhibition
- » Panel evaluation of project concepts: participants may present their project ideas to a panel of experts. The Panel will evaluate and formulate recommendations. The panel will consist of representatives of the European Investment Bank and the World Bank together with European programme managers, representatives of venture capital organisations, coordinators and project managers of successful RES schemes and senior consultants from fund raising companies.

By the end of Day 2 participants will have a thorough understanding of the actual processes that facilitate the various schemes from project concept formulation through the evaluation of proposals to the implementation of projects.

## VENUE

St. Julian's was originally a tiny fishing village, built around a small bay. It has retained most of its charm, thanks to some sympathetic restoration. Overlooking the bay is Spinola Palace, built in 1688. Today St. Julian's provides some of the best restaurants, like the San Giuliano and Barracuda, over-looking the Bay, popular with locals and visitors alike. Public transport is frequent and nearby Paceville and St. George's Bay within is walking distance.
